The project called “Regional Coordination Conference 2022” (hereinafter “Conference”) will be financed by Security Coordination Centre SCC Ltd. and Southeast Electricity Network Coordinating Center SEleNe CC, hereinafter: the Employers.

The organisation of European Network of Transmission System Operators for Electricity (ENTSO-E) recognized need for organization of high-level Conference which takes place in a different city of Europe since year 2017. Main focus of the Conference are different discussions on the ongoing topics of the European Transmission System Operators (TSOs) and Regional Security Coordinators (RSCs). The RSCs are companies established by the Transmission System Operators (TSOs) of Europe.

The 2022 event is hosted by the two RSCs operating in the South East Europe: SCC in Serbia and SEleNe CC in Greece, under the guidance of ENTSO-E Association.

Due to the COVID-19 restrictions and the ongoing situation with the pandemic, the Conference will take place online, via live-streaming. The speakers will be live connected through a platform of our preference (Zoom, WebEx or Skype etc), and only hosts (maximum 20 people) will be present on-site.

Considering the above-mentioned, the engagement of a studio is necessary. The studio needs to meet all expectations regarding the COVID-19 restrictions (m2 per person on site) so that the speakers, the presenter, and the working team can be safely hosted on site during the event.

SCC and SEleNe shareholder TSOs, as well as other TSOs in the region, shall have vast benefit from the Conference, as they will promote the cooperation in SEE, the regional integration, the integration into pan-European market and sustainable development.

The Examination and evaluation of submitted Tenders shall include post-qualification of the Tenderers, as a first and interim step in tendering procedure, which suppose simultaneous submission of tendering documents in “three envelopes”.
